

Iowa Strategic Goals Program Workshop

“EPA Regional Priorities, TRI 201 & DOT Transport Regulations”

Regulations. By law you are required to comply. However, compliance requirements can often seem overwhelming and confusing, and rule changes can catch you completely off guard and leave your head spinning.

Wouldn't it be nice if regulators would provide hints and tips to help you better understand what is required of your business? Would you like the opportunity to meet with regulators and industry experts in a small setting where questions are welcome? This workshop provides just that opportunity.

JOIN US at the Iowa Strategic Goals Program 1-day workshop on April 24, 2018! Mary M. Goetz, Waste Enforcement & Materials Management Branch Chief in the Air & Waste Management Division within EPA Region 7 will share with us EPA's regional priorities. Then later in the morning, an EPA Region 7 compliance officer will present information on the Toxics Release inventory (TRI) and provide a live demonstration of how to data-mine the TRI database. In the afternoon Hazardous Materials Specialists from the Iowa Department of Transportation (IDOT) will present the DOT's transport regulations for hazardous materials.

These sessions will provide plenty of time for open discussion / Q&A, so take advantage of this opportunity to learn, network and share ideas!

This workshop is the 23rd in a series offered by the Iowa Strategic Goals Program. Open to all Iowa manufacturers, the materials presented will apply to a broad range of industrial sectors. The following comments were received from previous workshops:

- “Great presentations and subject matter – relevant to all types of industries.”
 - “I like the collaborative approach to the workshop.”
 - “Speakers were very well educated in topics discussed.”
 - “I think this is a great forum to allow businesses to get good compliance information with the regulatory agencies.”
-

Sponsored by the Iowa Strategic Goals Program in partnership with U.S. Environmental Protection Agency's Region 7, the Iowa Department of Natural Resources and the Iowa Waste Reduction Center.
